THE LAST DAY'S RACE

For the handsome purse of *One Thousand Dollars*, produced yesterday the best running which has yet been witnessed. The racers which started were those named in our last, viz.—Col. Johnson's mare *Betsey Richards*, rider in white dress and red cap; Gen. Winn's sorrel horse *Sumpter*, rider with blue jacket; and Mr. James Howard's brown horse *Jim Crack*, rider with yellow jacket. They set out at the hour appointed, Betsey Richards in front, and Sumpter and Jim Crack close behind. Betsey Richards preserved her lead and came out ahead at the end of the heat—but the interest was greatly increased by the handsome performance of Jim Crack and the close match of his speed with Sumpter, each being at times before the other during the rounds. The time of running the first heat—(four miles) was eight minutes five seconds.

In the start of the second heat Sumpter was for a moment in front; but Betsey Richards soon shot ahead and retained her advantage with apparent ease throughout the heat. In this heat Sumpter was between the other two; alternately nearing Betsey Richards or falling behind towards Jim Crack. In the coming out Betsey Richards was first and won the purse; Sumpter second, and Jim Crack drawn up after coming within the distance post—Time of running the second heat eight minutes eight seconds. Upon the whole the race was a very fine one, exhibiting great powers on the part of the animals engaged in it.

The large amount of the purse and the very fine weather drew to the course many thousand persons, including the beauty, fashion and respectability of the city. The marked order and decorum which prevailed in this crowd was a subject of remark to many—and reflected the highest credit upon the Maryland Association.

PETERSBURG, Oct. 21.

NOTTOWAY RACES—On Tuesday the Proprietors' Purse of \$300, three mile heats, was won by Mr. Long's Henry, beating Mr. Harrison's Arab, Mr. Clay's Sir William, and some others.

On Wednesday the Jockey Club Purse, of \$500 was won by Mr. Harrison's Janette, beating Mr. Long's John Richards, at two heats.

We publish below a correct statement of the number of votes given to each of the opposing candidates for the Gubernatorial chair, in all the different counties throughout the State of Pennsylvania, by which it will be seen that the majority for Mr Shulze amounts to 25,779.

Great price of Tobacco—A single hogshead of Tobacco, from the plantation of Mr. Johnson of Frederick county, Md was sold in Georgetown on Thursday week, at the enormous price of *Fifty Dollars per hundred weight*! So much for care and attention in the cultivation of this article. Five or six hogsheads of a quality somewhat less excellent sold at an average of about *thirty dollars per cwt.*

Miscellaneous.

AMERICAN TEA.—A letter from W. Y. Lewis, of New-Orleans, states that Mr. Mallet, of Louisiana, had succeeded in raising Green Tea from the seed.—His plantation is near the river Amite. The bed of shrubs is of considerable extent. The climate appears to favour its growth. Mr. M. thinks the shrubs might be cultivated with perfect success if proper attention was paid to it. A specimen of the Hyson Tea, thus raised in the South, accompanied Mr. Lewis's letter, and on repeated trial has been found to be palatable and refreshing. The rolling and twisting operation upon the leaves, and the scenting and flavouring by other sweet scented substances, seem to be all that was wanting to render it equal to the article we import from Canton. In short, there is every reason to believe, that the United States is as favourable as China for the cultivation of the Tea Plant. The only doubt is, whether, in our state of society, the labour of our citizens cannot be more profitably bestowed than in the rearing of this vegetable.

NEW POST-OFFICE REGULATION.

Since the appointment of the new Post-Master General, the concerns of that office are administered with a vigilance and attention which reflect the highest credit on Mr. McLean. By a circular, issued from the General Post-Office at the commencement of the present month, we find that the publishers of newspapers and periodical works are required to make a return, at the end of every quarter, of the number of papers transmitted through the post-office, and the places where sent to. This plan, it is added in the circular, "has been adopted from a conviction that this department does not realize much more than one half the amount that should be received from newspaper postage, and that no mode can be effectual to ensure the collection of this amount, except one that shall enable this department to raise an account against every Post-master in the Union, for the postage on newspapers sent to his office. The above arrangement will do this."

SILVER MINES.—More than nine tenths of all the silver in the known world is derived from the mines of Spanish America, which produce according to Humboldt, \$43,500,000 annually; and of this sum New Spain yields about two-thirds. The mine of Valencia is one of the most noted. Its depth is 1640 feet, and it extends horizontally for about eight miles. The number of persons employed is about 3100, of whom 1800 work under ground, 900 of whom are employed in carrying the ore up the stairs that form the descent into the mine, and 400 in removing it to the places where it is tried and roasted. The annual produce is about 500,000*l.*, and the expense of working it 200,000*l.*

COAL.—A writer in the Monthly Magazine calculates that the annual consumption of coal in England, Scotland and Wales, is 23,669,400 tons.

GRAND CANAL MEETING.

The Washington Republican of the 3d inst. says— "That nearly 200 delegates will assemble in that city on Thursday next to represent the various sections of the country immediately interested in the union of the waters of the Potomac and the Ohio.

Thursday the 20th of November, has been appointed as a day of public Thanksgiving in Massachusetts. The same day of the month, is appointed for a like purpose in New Hampshire; and the 27th of the same month, for the same purpose in Connecticut.
